

Dr. Jha receives a Bachelor of Science in Civil Engineering from the National Institute of Technology Jamshedpur in India.

Dr. Jha conducts research and provides teaching and consulting services.

Dr. Jha receives a Master of Science in transportation and highway engineering from West Virginia University.

Dr. Jha receives a Doctor of Philosophy in civil engineering from the University of Oklahoma. He also publishes a research report, "Stabilization of Oklahoma Shales."

Dr. Jha serves as a university professor.

Dr. Jha publishes a book, "A Handbook of Civil Management and Civil Drawing," published by Central Book Depot in Allahabad, India.

Dr. Jha is appointed chair of the Department of Civil Engineering at Gorakhpur University in India. He also publishes a book, "An Introduction to Engineering for Hilly Regions," published by Central Book Depot in Allahabad, India.

Dr. Jha serves as a consulting engineer.

Dr. Jha becomes a senior geotechnical engineer for the Department of Transportation.

Dr. Jha spends two years teaching part-time at Purdue University-Indianapolis.

Dr. Jha starts working in more than one state as a Licensed Professional Engineer.

Dr. Jha edits and writes the Indiana Department of Transportation (INDOT) geotechnical manual.

Dr. Jha continues geotechnical research, writing geotechnical reports, and guiding new engineers.

Dr. Jha chairs the advisory committee for the international seminar on emerging trends in civil engineering.

Dr. Jha continues teaching, research, and consulting, focusing on soil mechanics, soil stabilization, geotechnical engineering, foundations, pavements, clay mineralogy, and physiochemical properties of soils.
